

1                   REMARKS

2                   Reexamination of this application is respectfully requested. This revision to the previously  
3 submitted amendment is being presented in response to the Notice of Non-Compliant Amendment  
4 of July 19, 2005 which stated that the amendment did not include the status or a complete listing of  
5 all claims. Applicant has added the requested information, and has resubmitted only the corrected  
6 section of the non-compliant amendment as shown above. Therefore, this application is thus  
7 believed to be in condition for review and eventual allowance of all claims remaining herein, and  
8 such action is respectfully requested.

9                   Respectfully submitted,

10
